

The Ultimate Cleaning Machines!

Are you a high volume operation...without much space for a dish machine? Compact Blakeslee undercounter dishwashers are designed to do more...in less space. Compare these standard features and capabilities:

Blakeslee Durability...

- All stainless steel construction for durability and long life.
- Exclusive [I.R.S.] built-in all stainless steel water recirculation system
- Heavy-duty spring counterbalanced door
- A stainless steel door gasket that never needs replacing
- Gauges mounted below the door, away from rising steam

Blakeslee Cleaning Performance...

- A 105 second wash cycle and 12 second final rinse, for 30 rack-per-hour capacity
- 180 gallons-per-minute of recycled water washing power
- Separate, precision-engineered wash and rinse spray arms
- Powerful 1-1/2 horsepower totally enclosed fan cooled motor

Blakeslee Safety & Ease of Use...

- Door interlock safety switch stops operation when door is opened
- Dual pressure gauge, plus wash and final rinse thermometers
- Wash and rinse spray arms/nozzles are easily removed for cleaning

Blakeslee Design Flexibility...

Blakeslee Undercounter Dishwashers are compact and designed to fit the space and layout constraints of a small dishroom, prep or work area. Models are available:

- For high temperature sanitizing or chemical/low-temp operation
- With or without a built-in electric water booster heater
- With: Standard, 6" taller or 12" taller compartment heights

Additional Options include:

- A pump drain
- Stainless steel back panel
- Delivery without panels, for build-in applications

Model/Ordering Guide:

Model Number	Model Description:	KW Power
UC-21A	Elect. Tank Heater, No Booster	1.5-kW
UC-21B	With Built-In Booster Heater	9.0-kW
UC-21C*	Low-Temp Chemical	1.5-kW
UC-21TB	6" Taller, w/Booster Heater	9.0-kW
UC-21XTB	12" Taller, w/Booster Heater	9.0-kW

* Includes chlorine dispenser

- 180 Gallons-per-Minute of Recycled Water Washing Power...
- 120 Second Total Cycle Time... 30 Racks-per-Hour Capacity!
- Heavy-Duty Spring Counterbalanced Door Aids Rack Loading/Unloading.
