Flight-Type Dishwashers

One, two, three or more tanks are available with either a 20" or 30" wide belt.

Blakeslee invented the rackless “flight-type” dishwasher and continues to lead the category with:

- A patented Integrated Recirculating System [I.R.S.]
- A lower belt height and “underslung” belt links
- Quick-Start Plus (water & energy) Consumption Saver
- Economizer water saving sensor-activated final rinse
- Lower 57½" overall unit height
- All stainless steel welded main frame construction
- Stainless steel rollers and ½" diameter conveyor rods
- 30" wide doors provide easy-access for tank cleaning

A Blakeslee Flight-Type Dishwasher can be custom designed for your dishroom with:

- One, two, three or more tanks, plus pre-wash
- Standard 20" or a 30" extra-wide belt
- Modular tank lengths to fit dishroom space
- Custom Flight-A-Round Systems — 20" or 30" width
- Choice of electric, gas or steam tank heating
- Electric or steam heated water booster heater

Model/Length*	Number/Type of Tank Modules
F/XF-PL-64	Single [Wash], w/Pre-Wash
F/XF-PM-74	Single [Wash], w/Pre-Wash
F/XF-EE-72	Two Tanks: Wash & Rinse
F/XF-LL-80	Two Tanks: Wash & Rinse
F/XF-MM-100	Two Tanks: Wash & Rinse
F/XF-PEE-96	Two [Wash & Rinse], w/Pre-Wash
F/XF-PLL-104	Two [Wash & Rinse], w/Pre-Wash
F/XF-PMM-124	Two [Wash & Rinse], w/Pre-Wash
F/XF-LLL-120	Three Tanks: Pre-Wash, Wash & Rinse
F/XF-LMM-140	Three Tanks: Pre-Wash, Wash & Rinse
F/XF-MMM-150	Three Tanks: Pre-Wash, Wash & Rinse

* Length of tank sections only F = 20" wide belt, XF = 30" wide belt

Rack-Type Dishwashers

Blakeslee Rack-Type Dishwashers are legendary for their durability, efficiency and cleaning performance with:

- A patented Integrated Recirculating System [I.R.S.]
- Rugged dual pawl anti-jam rack drive
- One piece welded stainless steel spray pipes and boxes
- Quick-Start Plus (water & energy) Consumption Saver
- Economizer water saving sensor-activated final rinse
- Lower 57½" overall unit height
- All stainless steel welded main frame construction
- 30" wide doors provide easy-access for tank cleaning

One, two, three or more tanks with 198 to 255 rack-per-hour capacity

A Blakeslee Rack-Type Dishwasher can be custom ordered for your dishroom with:

- One, two, three or more tanks, plus pre-wash
- Modular tank lengths to fit dishroom space
- Custom closed loop Rack-A-Round Systems
- Choice of electric, gas or steam tank heating
- Electric or steam heated water booster heater

Model/Length*	Number/Type of Tank Modules
R-L-40	Single [Wash]
R-M-50	Single [Wash]
R-PL-64	Single [Wash], w/Pre-Wash
R-PM-74	Single [Wash], w/Pre-Wash
R-CC-64	Two Tanks: Wash & Rinse
R-EE-72	Two Tanks: Wash & Rinse
R-LL-80	Two Tanks: Wash & Rinse
R-MM-100	Two Tanks: Wash & Rinse
R-PCC-88	Two [Wash & Rinse], w/Pre-Wash
R-PEE-96	Two [Wash & Rinse], w/Pre-Wash
R-PLL-104	Two [Wash & Rinse], w/Pre-Wash
R-PMM-124	Two [Wash & Rinse], w/Pre-Wash
R-EEE-108	Three Tanks: Pre-Wash, Wash & Rinse
R-LLL-120	Three Tanks: Pre-Wash, Wash & Rinse
R-MMM-150	Three Tanks: Pre-Wash, Wash & Rinse

* Length of tank sections only

Door-Type Dishwashers

Blakeslee Door-Type Dishwashers pack loads of dish cleaning capability into a compact package, with:

- A stainless steel high pressure wash pump
- Selection of 1, 2, 4 or 6-minute wash cycle
- Four-sided lift-up door provides easy access
- Separate, upper & lower wash and rinse spray arms
- Two heavy-duty springs counter balance the door
- An all stainless steel tank, hood and frame

Blakeslee Door-Type Machines are available:

- In a single-tank D-8 Model
- In a two-tank Double D-8 Model
- In a "tall" (D-8T) model, to handle bake pans
- With electric, gas or steam tank heating
- With electric or steam water booster heater

D-8 Single Tank Door-Type Dishwasher

Model	Dishwasher Type	Racks/Hour*
D-8	Single Tank, Door-Type	55
D-8T	Tall, Single Tank, Door-Type	55
Double D-8	Two Tank, Door-Type	110

**Assumes 1-minute wash cycle setting*

Pot & Utensil Washers

Blakeslee Pot and Utensil Washers can handle the toughest kitchen cleaning chores, with:

- A 7.5 or 10 horsepower high pressure wash pump
- Separate, upper & lower wash and rinse spray arms
- An all stainless steel tank, hood and frame

Blakeslee Pot Washers are available:

- In Front Load or Pass-Through Models
- Single or Double Rack [Pass-through]
- With electric or steam tank heater
- With electric or steam water booster heater
- With a variety of 26" x 26" racks

Model	Pot washer Type	Motor	Racks*
FL-121	Front Load – Single Rack	7.5 HP	26/hr
PT-151	Pass Thru – Single Rack	7.5 HP	26/hr
PT-301	Pass Thru – Double Rack	10 HP	52/hr

**Maximum per hour*

Undercounter Dishwashers

Blakeslee's undercounter dishwashers are American-Made, for durability and performance, with:

- All stainless steel construction
- Exclusive [I.R.S.] stainless steel water recirculation system
- 180 gallons-per-minute of recycled water cleaning power
- Heavy-duty spring counterbalanced door
- A stainless steel door gasket that never needs replacing

Your choice of five models:

Model	Model Description:	Power
UC-21A	Elect. Tank Heater, No Booster	1.5-kW
UC-21B	With Built-In Booster Heater	9.0-kW
UC-21C*	Low-Temp Chemical	1.5-kW
UC-21TB	6" Taller, w/Booster Heater	9.0-kW
UC-21XTB	12" Taller, w/Booster Heater	9.0-kW

**Includes chlorine dispenser*

Glasswashers

Fully automatic operation when glass is placed on rotary conveyor

Blakeslee rotary glass washers have 1000 glass-per-hour continuous cleaning capacity, with:

- Quiet all stainless steel double wall construction
- Heavy duty, full width ice and scrap tray standard
- Durable, all metal conveyor gear drive
- Non-abrasive rotary conveyor won't mar glass rims
- Stainless steel upper and lower spray boxes
- Separate heavy duty pumps for detergent, sanitizer and rinse aid

Planetary Mixers

Model DD-80
80-Quart Floor Mixer

Blakeslee planetary mixers are legendary for their simplicity, durability, long life and superior mixing performance, with

- Automotive-type wide-face gear drive
 - Heavy-duty ball bearings and clutch
 - Transmission and gears protected with synthetic lubricant
 - Powerful ventilated motor mounted in drip-proof housing
 - 15-minute timer automatically shuts off mixer
- Solid stainless steel bowl guards double as splash shields
 - Heavy duty stainless steel mixing bowl resists abuse

Get the mixer that is perfect for your kitchen or bakery application, with a choice of:

- **Size:** 20, 30, 40, 60 or 80 quart mixers;
- **Configuration:** Bench, Floor or Cart mounted;
- **Transmission Speeds:** 2, 3 or 4-speed, depending on model;
- **Finish:** Painted, Polished Aluminum or Stainless
- **Motor Horsepower:** on 60 & 80 Quart Models
- **Pizza Dough Models:** in 60 & 80 Quart
- **Attachments:** Vegetable slicers, meat choppers & more!

Model Number	Description/Type	Motor
B-20-CS/CA/D	20 Quart - Bench Mount	1/2 HP
F-20-CS/CA/D	20 Quart - Floor Model	1/2 HP
U-20-CA/D	20 Quart - Cart Mounted	1/2 HP
F-30-CS/CA/D	30 Quart - Floor Model	3/4 HP
DD-40 (D)	40 Quart - Floor Model	1-1/2 HP
DD-60 (D)	60 Quart - Floor Model	2 HP
DD-60-PM [Pizza]	60 Quart - Floor Model	3 HP
DD-60-XT-300 (D)	60 Quart - Floor Model	3 HP
DD-80 (D)	80 Quart - Floor Model	2 HP
DD-80-PM [Pizza]	80 Quart - Floor Model	3 HP
DD-80-XT-500 (D)	80 Quart - Floor Model	5 HP

CS = Painted Carbon Steel; CA = Painted Cast Aluminum;
D = Deluxe Polished Aluminum or Stainless Steel

Potato/Vegetable Peelers

Model XC-15-T
15-20 Pound Peeler

Blakeslee potato and vegetable peelers can make short work of peeling potatoes and other root vegetables, with:

- 15-60 pound batch capacity
- Heavy all stainless steel construction
- Cast aluminum discharge door - can empty into sink
- Cast aluminum long life abrasive peeling disk
- Splash-proof 5-minute timer
- Heavy stainless steel peel strainer basket

Your choice of four models:

Model*	Peeler Type	Capacity	Motor
S-15-T	Bench Type	15-20 lbs.	1/3 HP
XC-15-T	Floor Type	15-20 lbs.	1/3 HP
XC-30-T	Floor Type	30-33 lbs.	3/4 HP
XC-60-T	Floor Type	50-60 lbs.	1 HP

* T suffix = with timer

Silver/Stainless Burnishers

Model BB-914 Silver Saver™
Burnishing System

Blakeslee Burnishers can revitalize and restore your stainless or silver flatware with:

- Open top, easy-loading design
- Light weight porcelain-ceramic burnishing media
- Skirt & covers are high strength PBS plastic or stainless steel*
- Polishing tub is 11-gauge steel, with polyurethane lining
- Polishing compound tank is molded plastic

Model	Burnisher Flatware Capacity	Motor	Compound Tank
BB-914	1-gross/12 dozen	1/3 HP	1 Gallon
BB-2016	4-gross/48 dozen	1 HP	2 Gallons
BB-1224*	4-gross/48 dozen	1-1/2 HP	2 Gallons

BLAKESLEE

Food Slicers

Model GS-12
Manual Slicer

Blakeslee Slicers are a cut above most gravity feed slicers, with:

- 12" high carbon stainless, chrome-plated hollow ground blade
 - Integrated knife sharpener with replaceable grinding stones
 - High quality, self-lubricating bushings and ball bearings
- Corrosion resistant aluminum & stainless steel construction
 - Easy blade guard removal, with safety motor-disconnect
 - Carriage and center plate are removable without tools for easy cleaning

Your choice of three models:

Model	Slicer Type	Motor Horsepower
GS-12L	Manual Feed	1/3 HP
GS-12	Manual Feed	1/2 HP
GS-12AA	Automatic Feed	1 HP
